

A Smart EU Energy Policy

June 29th and 30th 2009
At Clingendael

The Green Package in relation to the internal energy market design and the 2nd Strategic Energy Review

Version 25th June 2009

Three sessions will discuss the most relevant interaction-issues. Sessions will have 1-3 introductions (short presentation, one academic and one industry/stakeholder), followed by an actively moderated discussion.

June 29 (12.30- 21.00)

12.30-13.30 arrivals, coffee and sandwiches

13.30-13.45 Workshop opens, short introduction of the Smart Policy Project; **Jacques de Jong (CIEP)**

13.45-16.15 **First session**, discussing the RES-Directive and the Efficiency Programs on the basis of three specific subject matters:

- 13.45-15.00: The interaction with transmission grid systems, their operations, their regulation and their investments. Moderator: **Jean-Michel Glachant** (LdP-Florence) Introduction by **Michael Hogan** (European Climate Foundation).
- 15.00-16.15: The interaction with system management due to decentralised developments (small scale RES, RES in CHP, smart metering etc.). Moderated by **Jean-Michel Glachant** (LdP-Florence). Introduction by **Reinhard Haas** (Vienna University).
- 16.15-16.45 Break (coffee/tea)

16.45-18.00 : **Second session**, discussing the role of RES and markets:

- RES, cross-border trade and wholesale markets. Moderator **Jacques de Jong** (CIEP), introduction by **Jan van Aken** (EFET SG) and **Peter Niermeijer** (RECS International).

18.00-19.15: **Third session**, discussing the role of RES and supply security:

- The interaction with supply security and notably the role of biomass and its imports into the EU market. Moderated by **Manfred Hafner** (FEEM). Introduction by **André Faaij** (Copernicus Institute).

19.30-21.00 **Drinks and Indonesian Buffet-dinner**

June 30, 09.00-15.00

09.00-10.30: **Fourth session**, discussing the role of non-RES:

- Is there a need for a EU fuel mix policy, including nuclear and CCS? Moderator: **Robert Grant** (Wilton Park). Introduction by **Pieter Boot** (CIEP, former IEA) and reaction by **Göran Svensson** (Vattenfall).
- 10.30-11.00 Coffee Break

11.00-12.30: **Fifth session** will discuss the ETS Directive:

- The interaction of ETS with the internal electricity market, its designs and regulatory frameworks (monitoring, oversight and auctioning) and its impact of level playing fields in energy markets (electricity, carbon, gas, coal). Moderator **Peter Kaderjak** (Corvinus Budapest). Introduction by **Herman Snoep** (ECN). Reaction by **Vera Brenzel** (E.ON).
- 12.30-13.15 Sandwich lunch

13.15-14.30 **Sixth session** on regulators, markets and sustainability:

- New roles for regulators and for ACER? Moderator **Jean-Michel Glachant** (LdP-Florence) Introduction by **Per Agrell** (FEEM/UCLouvain).

14.30-15.00 **Conclusion** and follow-up by **Jacques de Jong**
