## CHAPTER 1. THE LIBERALISATION OF THE EU ELECTRICITY MARKET AND THE ROLE OF POWER EXCHANGES

MARTHA ROGGENKAMP and FRANÇOIS BOISSELEAU .....	1
1. Introduction .....	1
2. Electricity Liberalization in Europe .....	1
2.1. The Creation of an Internal Energy Market .....	1
2.2. The EU Treaty and the Electricity Sector .....	3
2.2.1. Electricity Companies and Competition Law .....	3
2.2.2. State Monopolies and Exclusive Rights to Import and Export .....	4
2.2.3. Free Movement of Goods .....	5
2.2.4. Concluding Remarks .....	6
2.3. The Electricity Directives .....	6
2.3.1. Introduction .....	6
2.3.2. Market Opening .....	7
2.3.3. Third Party Access .....	9
2.3.4. System Operators .....	10
2.3.5. Unbundling .....	10
2.3.6. Dispute Settlement Authority and Regulatory Authority ..	11
2.3.7. Public Service Obligations .....	12
2.4. Regulation no. 1228/2003 and Access to Cross-border Interconnections .....	13
2.5. Trading Electricity in a Liberalised Market .....	14
2.5.1. Introduction .....	14
2.5.2. Physical Trading .....	15
2.5.3. Trading Financial Products .....	16
3. The Emergence of Power Exchanges .....	19
3.1. Introduction .....	19
3.2. The Forerunner of Power Exchanges: Power Pools .....	19
3.3. What is a Power Exchange? .....	20
3.4. Products .....	23

3.5.	Price Formation Mechanisms	23
3.5.1.	Introduction	23
3.5.2.	Hourly Bids	24
3.5.3.	Block Bids	25
3.5.4.	Matching	26
4.	Organization of the Book	28

## **CHAPTER 2. THE NORDIC ELECTRICITY MARKET – A MATURE INTERNATIONAL MARKET AND POWER EXCHANGE**

	ODD-HARALD WASENDEN	31
1.	Introduction	31
2.	Energy Liberalisation in the Nordic Countries	33
2.1.	Introduction and Overview	33
2.2.	Market Structure	34
2.2.1.	Production, Consumption and Market Players	34
2.2.2.	Interconnection	35
2.3.	Electricity Legislation	36
2.3.1.	Overview	36
2.3.2.	Electricity Legislation in Sweden, Denmark and Finland	37
2.3.3.	Norwegian Electricity Legislation	39
2.4.	Security Legislation	43
2.4.1.	Overview	43
2.4.2.	Norwegian Security Legislation	44
2.4.3.	Security Legislation in Sweden, Denmark and Finland	47
2.5.	Competition Law	48
3.	The Emergence of an Organised Market: Nord Pool	49
3.1.	The Emergence of the Marketplace: History	49
3.1.1.	The Physical Market	50
3.1.2.	The Emergence of a Financial Market	51
3.2.	Current Organisation – the Nord Pool Group of Companies	51
3.3.	Participants and Trading Activities at a Glance	52
3.4.	Supervision	53
4.	Functioning of the Physical Market	54
4.1.	General	54
4.2.	The Role of the Marketplace in the Power System – TSO Interface	55
4.3.	Legal Framework of the Marketplace	56
4.3.1.	Licensing	56
4.3.2.	The Obligations of Nord Pool Spot	57
4.3.3.	Regulation of the Cross-border Functions of the Marketplace	58

4.4.	Products and Bidding in the Elspot Market . . . . .	59
4.5.	Price Setting in the Elspot Market – Market Splitting . . . . .	60
4.6.	Clearing and Settlement in the Physical Market . . . . .	62
4.7.	Elbas . . . . .	63
5.	The Financial Market of Nord Pool . . . . .	64
5.1.	Introduction – the Correlation between Physical and Financial Trade . . . . .	64
5.2.	Regulation of the Financial Market . . . . .	65
5.3.	Nord Pool’s Surveillance of the Market . . . . .	67
5.4.	Functioning of the Nord Pool Financial Market in General . . . . .	69
5.5.	The Products in the Financial Market . . . . .	70
5.5.1.	Introduction . . . . .	70
5.5.2.	Forward Contracts and Future Contracts . . . . .	71
5.5.3.	Options . . . . .	71
5.5.4.	Contracts for Difference . . . . .	72
5.6.	Clearing and Settlement in the Financial Market . . . . .	73
5.6.1.	Regulation of the Clearing Services . . . . .	73
5.6.2.	Clearing Procedures . . . . .	73
6.	Cross-border Trade Between the Nordic Area and Other Countries . . . . .	75
6.1.	Introduction . . . . .	75
6.2.	Capacity Reservation and Congestion Management . . . . .	75
7.	Developments . . . . .	76
8.	Conclusions . . . . .	79

### **CHAPTER 3. THE UK ELECTRICITY MARKET –FROM POOL TO EXCHANGE**

	MARK BARTHOLOMEW . . . . .	81
1.	Introduction . . . . .	81
1.1.	The Electricity Market Arrangements in England and Wales . . . . .	81
1.2.	The Separate Market Arrangements in Scotland and in Northern Ireland . . . . .	81
1.3.	The Extension of NETA . . . . .	82
2.	Liberalisation and the New Industry Structure . . . . .	83
2.1.	Drivers for Liberalisation . . . . .	83
2.2.	The New Market Structure . . . . .	84
2.2.1.	Generation: The New Generation Companies . . . . .	84
2.2.2.	Transmission: The National Grid Company plc . . . . .	85
2.2.3.	Distribution and Retail Supply: The RECs . . . . .	87
2.3.	Interconnection . . . . .	89

2.3.1.	The England-France Interconnector .....	89
2.3.2.	The Anglo-Scottish Interconnector .....	90
3.	The Electricity Market in England and Wales .....	91
3.2.	The Electricity Pool .....	91
3.2.	NETA .....	93
3.2.1.	Balancing Mechanism .....	94
3.2.2.	Development of OTC and Exchange-Based Trading ....	94
4.	Legal and Regulatory Framework .....	95
4.1.	Scope and Relevance .....	95
4.2.	Electricity Act 1989 and the New Regulatory Framework .	95
4.3.	Utilities Act 2000 and the Development of the Regulatory Framework .....	97
4.4.	Regulation of Competition .....	97
4.5.	Financial Services Regulation .....	99
5.	The Abolition of the Pool and the Implementation of NETA .....	102
5.1.	Review of the Electricity Trading Arrangements .....	102
5.2.	Failings of the Electricity Pool .....	103
5.2.1.	Inflexible Governance .....	103
5.2.2.	High Prices .....	103
5.2.3.	Market Power Abuse .....	103
5.2.4.	No Demand-Side Participation .....	104
5.2.5.	Excessive New Generation .....	104
5.3.	Successes of the Pool .....	104
5.3.1.	Security and Quality of Supply .....	104
5.3.2.	Encouragement of New Investment .....	105
5.3.3.	Retail Supply Competition .....	105
5.4.	The Objectives of NETA .....	105
5.4.1.	Interaction with Gas Market .....	105
5.4.2.	Flexible Trading .....	105
5.4.3.	Transparency .....	106
5.4.4.	Lower Wholesale Prices .....	106
5.4.5.	More Flexible Governance .....	106
5.5.	Have the Objectives of NETA been achieved? .....	106
5.5.1.	Flexible Trading .....	106
5.5.2.	Transparency .....	107
5.5.3.	Lower Wholesale Prices .....	107
5.5.4.	More Flexible Governance .....	108
5.6.	Other Consequences of NETA .....	109
5.6.1.	Operating Inefficiencies .....	109
5.6.2.	Additional Costs for Retailers .....	110
5.6.3.	Impact on Renewable Generators .....	110

6.	The Development of Power Exchanges Under NETA . . .	110
6.1.	The Role of the Exchanges . . . . .	110
6.2.	The Institutions . . . . .	111
6.2.1.	UKPX . . . . .	111
6.2.2.	APX . . . . .	113
6.2.3.	International Petroleum Exchange . . . . .	114
7.	New Developments . . . . .	114
7.1.	BETTA . . . . .	114
7.1.1.	Rationale behind BETTA . . . . .	115
7.1.2.	Common Trading Arrangements . . . . .	115
7.1.3.	Common Transmission Access Arrangements . . . . .	115
7.1.4.	Single GB System Operator . . . . .	116
7.2.	Emissions Trading . . . . .	116
7.2.1.	Implementation of the EU Emissions Trading Directive .	116
7.2.2.	Implications of the Emissions Trading Directive for the UK Electricity Market . . . . .	117
8.	Conclusion . . . . .	117

**CHAPTER 4. THE LIBERALISATION OF THE ELECTRICITY  
SECTOR IN THE NETHERLANDS AND THE ROLE OF  
THE APX**

	ONNO VERKUYL, MARTHA ROGGENKAMP and FRANÇOIS BOISSELEAU . . . . .	119
--	--	-----

1.	Introduction . . . . .	119
2.	The Liberalisation of the Electricity Sector . . . . .	120
2.1.	The Legal Framework before Market Liberalisation . . . .	120
2.1.1.	Electricity Act 1989 . . . . .	121
2.1.2.	Market Structure before Liberalisation . . . . .	123
2.2.	The Liberalisation of the Electricity Market . . . . .	123
2.2.1.	The Electricity Act 1998 . . . . .	123
2.2.2.	Market Opening . . . . .	123
2.2.3.	Unbundling and the Appointment of Network Managers . . . . .	125
2.2.4.	Third Party Access . . . . .	126
2.2.5.	Programme Responsibility . . . . .	127
2.2.6.	The Dutch Energy Regulator (DTe) . . . . .	128
2.3.	Market Structure after Liberalisation . . . . .	128
3.	Electricity Trade and the Establishment of the APX . . . .	129
3.1.	The Establishment of the APX . . . . .	129
3.2.	Ownership and Organisation of APX . . . . .	132
3.2.1.	From Private to Public Ownership . . . . .	132
3.2.2.	Organisation of APX . . . . .	133

3.2.3.	Endex NV and Its Relationship with APX BV	134
3.3.	Participants at APX	134
3.4.	Supervision	135
3.4.1.	Introduction	135
3.4.2.	The Role of the Energy Regulator DTe	136
3.4.3.	Internal Supervision	137
4.	Functioning of the Organised Market	138
4.1.	The Regulations	138
4.2.	Products	139
4.2.1.	Introduction	139
4.2.2.	Day-Ahead-Market	140
4.2.3.	Commodity Delivery System	141
5.	Cross-border Trade	142
5.1.	Interconnectors	142
5.2.	Import and Export Regulations and Reciprocity Rules	143
5.3.	Access to the Interconnectors and Capacity Reservation	144
6.	New Developments	146
7.	Conclusion	148

## **CHAPTER 5. LIBERALISATION AND ENERGY EXCHANGE(S) IN GERMANY**

	MICHAEL CIESLARCZYK and MANFRED UNGEMACH	151
1.	Introduction	151
1.1.	Liberalisation of the German Electricity Sector	151
1.2.	Market Structure and Market Development	153
1.2.1.	Market Structure	153
1.2.2.	Electricity Production and Consumption	154
1.2.3.	Trading	156
2.	Legal Framework	156
2.1.	Implementation of the 1996 Electricity Directive and pending Implementation of the 2003 Electricity Directive	156
2.1.1.	Market Opening	157
2.1.2.	Unbundling	158
2.1.3.	Third Party Access	158
2.1.4.	Licensing Requirements	160
2.1.5.	Supervision	161
2.2.	Competition Law	161
2.2.1.	Applicability of the Competition Law Regime	161
2.2.2.	Abuse Control of Exclusive Dealing Agreements	162

2.2.3.	Abuse of a Dominant Position .....	162
2.2.4.	Prohibition of Discrimination and Unfair Hindrance ...	163
2.2.5.	Recent Amendments and New Developments .....	163
2.3.	Private Law .....	164
2.3.1.	Associations Agreements .....	165
2.3.2.	Balancing Agreements .....	167
2.4.	Financial Services and Banking Regulation .....	171
2.4.1.	Introduction .....	171
2.4.2.	Licensing Requirements .....	172
3.	The Leipzig Power Exchange and the Frankfurt European Energy Exchange .....	174
3.1.	The Establishment of the LPX and the EEX .....	174
3.2.	The Merger of Both Exchanges into one German Electricity Exchange .....	175
3.3.	Structure / Supervision .....	176
4.	The Functioning of the Organised Market .....	177
4.1.	The Participants .....	177
4.2.	The Regulations .....	178
4.2.1.	Introduction .....	178
4.2.2.	Exchange Rules .....	178
4.2.3.	Trading Rules .....	178
4.2.4.	Clearing Rules .....	179
4.2.5.	Examination Regulations .....	179
4.3.	Markets .....	179
4.4.	Products .....	180
4.4.1.	Spot Market .....	180
4.4.2.	Futures Market .....	183
4.4.3.	OTC Clearing Services .....	185
5.	Cross-border Trade .....	186
5.1.	Introduction .....	186
5.2.	Interconnectors .....	186
5.3.	Import/Export Regulations and Reciprocity Rules .....	187
5.4.	Access to Interconnectors and Capacity Reservation .....	188
5.4.1.	Applicable Legislation .....	188
5.4.2.	Congestion Management .....	188
6.	New Developments .....	190
7.	Conclusion .....	192

**CHAPTER 6. INTRODUCING COMPETITION IN THE  
FRENCH WHOLESALE MARKET: THE ROLE OF THE  
POWER EXCHANGE**

	NICOLAS CHARBIT and FRANÇOIS BOISSELEAU .....	195
1.	Introduction .....	195
2.	Liberalisation of the French Electricity Sector .....	196
2.1.	Market Structure .....	196
2.2.	Legal Framework .....	198
2.2.1.	Implementation of the Electricity Directive .....	198
2.2.2.	The Electricity Law and Energy Trading .....	200
2.2.3.	Financial Security Regulation .....	202
3.	Powernext .....	202
3.1.	The Establishment of Powernext .....	202
3.2.	The Participants/Owners of Powernext .....	203
3.3.	Supervision .....	204
4.	Functioning of the Power Exchange .....	206
4.1.	The Regulations .....	206
4.2.	The Products .....	207
4.3.	Market Developments .....	208
5.	Cross-border Trade .....	213
5.1.	Interconnection with Neighbouring Countries .....	213
5.2.	Import/Export Regulations and Reciprocity Rules .....	214
5.3.	Access to Interconnectors and Capacity Reservation .....	215
6.	New Developments .....	218
7.	Conclusion .....	219

**CHAPTER 7. THE LIBERALISATION OF THE AUSTRIAN  
ELECTRICITY INDUSTRY AND THE ROLE OF THE  
AUSTRIAN POWER EXCHANGE**

	KATJA TAUTSCHER and MARTIN ABRAM .....	223
1.	Introduction: the Liberalisation of the Austrian Electricity Sector .....	223
2.	The Electricity Market in Austria .....	224
2.1.	Production and Consumption .....	224
2.2.	Market Structure and Market Development .....	225
2.3.	The Wholesale Market .....	226
3.	The Legal Framework for Electricity Trading .....	227
3.1.	Division of Powers .....	227
3.2.	Electricity Legislation .....	227
3.2.1.	Implementation of Directive 1996/92/EC .....	227
3.2.2.	Unbundling .....	228

3.2.3.	Third Party Access	229
3.2.4.	Balancing Regime	229
3.2.5.	Independent Regulatory Authorities	232
3.2.6.	Competition Law Regime	232
3.3.	Regulatory Authorities	232
3.3.1.	Elektrizitäts-Control GmbH (ECG or “E-control”)	233
3.3.2.	Elektrizitäts-Control Commission (ECC)	233
3.3.3.	Federal Minister of Economics and Labour	233
3.4.	Financial Regulations	234
3.4.1.	Introduction	234
3.4.2.	Physically Settled Transactions	234
3.4.3.	Cash Settled Derivatives	235
3.4.4.	Security Legislation	235
4.	Emergence of the Organised Market	236
4.1.	The Establishment of the Austrian Power Exchange EXAA	236
4.2.	Legal Basis of EXAA	237
4.3.	Regulations	238
4.4.	The Participants of EXAA	239
4.4.1.	Types of Participation	239
4.4.2.	Requirements for Participation	240
4.4.3.	Membership	241
4.5.	Supervision	241
4.6.	Products Traded on EXAA	242
4.6.1.	General	242
4.6.2.	Spot Market Products	243
4.6.3.	Derivatives Market Products – eSPREADS	243
4.6.4.	RECS Certificates and Guarantees of Origin	244
4.7.	The Functioning of the Organised Market	245
4.7.1.	Trading on the Spot Market	245
4.7.2.	Trading on the Derivatives Market	246
4.7.3.	Objections against Trade Confirmations	246
4.7.4.	Delivery, Clearing and Settlement	247
4.7.5.	Collateral	247
4.7.6.	Fees	249
5.	Cross Border Trade	249
5.1.	Introduction	249
5.2.	Import/Export Regulations and Reciprocity Rules	250
5.3.	Access to Interconnectors	250
5.3.1.	Restrictions due to Insufficient Grid Capacity	250
5.3.2.	Allocation through Capacity Division	251
5.3.3.	Allocation through Auction	251
5.4.	Fees	251

6.	New Developments .....	252
6.1.	Environmental Exchange .....	252
6.2.	Trading Gas Products .....	253
6.3.	Auctions of Transmission Capacity .....	253
7.	Conclusion .....	253

## **CHAPTER 8. THE SPANISH EXPERIENCE: THE ROLE OF THE POWER POOL**

JAVIER DE QUINTO, IÑIGO DEL GUAYO and YOLANDA

GARCÍA MEZQUITA .....	255
-----------------------	-----

1.	Introduction .....	255
2.	The Liberalisation of the Spanish Electricity Sector .....	255
2.1.	The Electricity Act 1997 – A New Regulatory Model .....	255
2.2.	Market Opening .....	256
2.3.	Transmission System Operator .....	257
2.4.	The Establishment of a Power Pool .....	258
2.5.	The Issue of Stranded Costs .....	258
3.	The Spanish Electricity Market Structure .....	259
4.	The Market Operator (OMEL) .....	261
4.1.	The Establishment of OMEL .....	261
4.2.	Market Rules .....	262
5.	The Functioning of the Pool .....	262
5.1.	Introduction .....	262
5.2.	Market Participants .....	263
5.3.	The Daily Market .....	264
6.	Cross-border Trade .....	265
6.1.	International Electricity Connections .....	265
6.2.	Import/Export Regulations and Reciprocity Rules .....	266
7.	New Developments: The Iberian Market .....	267
8.	Conclusion .....	268

## **CHAPTER 9. THE ROLE OF THE ORGANISED ELECTRICITY MARKET IN ITALY**

FRANCESCO VETRÒ .....	271
-----------------------	-----

1.	The Electricity Sector before Liberalisation .....	271
2.	Liberalisation of the Italian Electricity Sector .....	272
2.1.	Market Structure .....	272
2.2.	Legal Framework .....	273
2.2.1.	General .....	273
2.2.2.	Regulating the Networks .....	273

2.2.3.	Supervision	274
2.2.4.	Market Opening	275
2.2.5.	Regulating the Market	276
3.	The Electricity Market Operator <i>Gestore Del Mercato Elettrico</i>	278
3.1.	Establishment of the Market Operator	278
3.2.	Market Regulations	279
3.3.	The Markets	279
3.3.1.	The Energy Markets: Day-Ahead and Adjustment Markets	279
3.3.2.	Dispatching Services Market	280
3.4.	Other Developments	281
3.4.1.	General	281
3.4.2.	Green Certificates	281
3.4.3.	Energy Efficiency Certificates	281
4.	Cross-border Trade	282
4.1.	Interconnection with Neighbouring Countries	282
4.2.	Access to Interconnectors and Capacity Reservation	282
4.3.	Interconnectors and the Organised Market	285
5.	Conclusion	285

## **CHAPTER 10. THE LEGAL FORM OF POWER EXCHANGES: A COMPARATIVE OVERVIEW**

	BARRY BARTON	287
1.	Introduction	287
2.	Legal Foundations	289
2.1.	Legal Nature of Power Exchanges	289
2.1.1.	Exchanges Created by Contract or other Private Law Means	289
2.1.2.	Exchanges Created by Statute or other Public Law Means	290
2.1.3.	Exchanges Created as Corporations	290
2.1.4.	Exchanges in the EU	291
2.2.	Functional Distinctions	291
3.	External Regulation	292
3.1.	Types of Regulation	292
3.2.	Monopoly	295
3.3.	Self-Regulation	297
4.	Direction, Governance, and Management of Power Exchanges	299
4.1.	Decision-making Powers	299
4.2.	Earlier Analysis	300
4.3.	A New Classification	302

5.	Specific Governance Issues .....	303
5.1.	Participants or Independents .....	303
5.2.	Market Principles .....	303
5.3.	Voice of Participants .....	304
5.4.	Rulemaking and Voting .....	305
5.5.	Monitoring and Surveillance .....	305
5.6.	Dispute Resolution .....	306
5.7.	Enforcement .....	306
6.	Inward Looking and Outward .....	307
7.	Desirable Attributes of Power Exchanges .....	308
8.	Continuing Evolution .....	310
